II. Staff Medication Dispensing Procedures

Agency program staff **must**:

2. Ensure that only authorized staff accept medication which may include the Executive Director, Program Coordinator, Administrative Coordinator or other designated staff
3. Verbally communicate with the parent or guardian regarding any specific instructions regarding the dispensing or storage of the medication; it is also the responsibility of authorized staff who receives medication to properly store medication in a locking cabinet or refrigerator as needed. **It is extremely important that stored medication is out of the reach of other patrons and particularly children.**
4. Obtain copies of all waivers, internal procedures, medical information forms, and medication logs when obtaining the prescription medication to be transported to the program site. All medication stored at a program site must be secured and only available to authorized program staff.
5. Program staff responsible for dispensing medication must strictly follow all written instructions on the medical information form and any information contained on original prescription container labels. In the event that conflicting dispensing information exists, medication should not be administered until the parent, guardian, or physician are reached by phone to obtain specific instructions.
6. Unless otherwise arranged, only paid and trained agency staff will be allowed to dispense medication.
7. Agency staff responsible for dispensing medication will fully complete the medication information contained on the medication log form. Medication dispensing logs should be completed until medication dispensing has ceased and completed medication logs should be turned into NWCSRA and kept in a permanent file for at least three years at the conclusion of the program
